### **DETAILED ACTION**

1. Claims 1-9 and 11-23 are pending. It is noted that the Application does not possess a claim 10. Thus, claims 11-23 will have to be renumbered or claim "10" must be cancelled.

### ***Claim Rejections - 35 USC § 103***

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-9 and 11-23 rejected under 35 U.S.C. 103(a) as being unpatentable over Brown et al., US 5,923,552 in view of Hogge, US 5,983,194.

Brown discloses, Abstract, Figs. 1-6 and related text, a method for synchronizing a supplier's production and starting manufacturer's production within time restraints.

Brown does also include a variety of quantities, e.g. production delivery time.

Brown does not disclose a step of determine a time needed to receive supplies from a supplier.

Hogge discloses, e.g. Figs. 1-3 and related text, coordinating production in a plurality of factories including determining the time needed to receive supplies from a supplier. To have provided such for Brown would have been obvious to one of ordinary skill in the art in view of Hogge.

With regards to claims 9 and 11-23 these features are disclosed by Brown, e.g. starting and ending time recited by Brown, or inherent within the context of the art, e.g. a delivery location, a variety of details of the item to be producted, a delivery time. To have provided such for Brown, as modified by Hogge, would have been obvious to one of ordinary skill in the art.
